

Announcement : Re-opening of School for 6th to 10th standards according to government guidelines

We are pleased to announce that the State Government took the decision to re-open schools for students in 9th and 10th standards from 01 February 2021 and then after 6th to 8th standards from 17 February 2021. We have been observing the government guidelines closely throughout the pandemic and we are happy that we are now able to welcome our students and parents from the 6th to 10th standards into the school.

We have implemented measures according to Government guidelines, and we will continue to carry out risk assessments in order to ensure the ongoing safety of our students, parents, and teaching staff. We have also installed facilities that will help our students and staff to observe hygiene and social distancing regulations.

WE REQUEST THAT IF ANY OF OUR STAFF, STUDENTS, OR PARENTS EXPERIENCE CORONAVIRUS SYMPTOMS OR ARE GENERALLY FEELING UNWELL, THEY MUST STAY HOME AND MUST NOTIFY A MEMBER OF THE SCHOOL TEAM IMMEDIATELY (BY PHONE OR EMAIL).

This will allow us to then carry out contact tracing and inform any other individuals who may have come into contact with the individual displaying symptoms. Why is this important? This will allow us to minimize the spread of the virus.

The management is grateful to the outstanding team at Bharat Vidyalaya Karadi, and also deeply appreciative of all our well-wishers who have offered constant support, help, and advice.

This message is to request all of our students, staff, and parents to continue to observe the government's guidelines. This is for our safety. It has been reported that younger people are being severely affected by mutations of the COVID virus. The vaccination programme is in progress but we must not take this for granted and we must remember that there are many individuals who have not yet received the vaccination and therefore, still at risk. Respect one another.

TAKE EXTRA CARE AND STAY SAFE
